Our Response:

1. Why is unity in the church so important?
2. How are you using your gifts within the church?
3. What do you think is your greatest potential contribution to other Christians?
4. Is your level of involvement at church sufficient to allow you to grow to spiritual maturity?
5. What is the importance of our differences as believers within the church? Is it hard to believe our growth into maturity is because of those differences?
